

# GLOSSARY

- **Admin (Administrator):** A platform user with special system privileges. They have the power to moderate the platform by applying a Ban to users who violate the rules or removing unsuitable games from the Store.
- **Ban (Suspension):** A restrictive state applied by an Admin. If applied to a User, it prevents them from accessing or using the platform. If applied to a Game, it hides it from the Store preventing future purchases.
- **Credit Card:** An external payment method that the user can use to directly purchase a game during the checkout phase.
- **Gift Card:** A unique prepaid alphanumeric code. Users can redeem it to add funds to their Balance (Wallet). Once used, the card is "discarded" and is no longer reusable.
- **Game:** The main digital product sold on the Orbit platform. It is characterized by specific attributes such as title, base price, current price (if discounted), tag (genre) and a cover image.
- **Library:** The personal and private collection of games owned by a User. Purchased games are automatically added to this entity.
- **Payment Method:** The abstract interface that defines how a financial transaction can be completed on the platform (e.g. via Credit Card).
- **Balance / Wallet:** The virtual account associated with each User. It can be recharged via Gift Cards and is used as internal currency for quick game purchases.
- **Publisher (Editor / Developer):** A specific type of user who has authorization to upload and publish new Games on the platform, making them available for sale.

- **Review:** A judgment composed of a numerical rating and a textual comment. A User can leave a review exclusively for games in their Library, and at most only once per game.
- **Store (Shop):** The virtual showcase of the Orbit platform where all non-banned Games are displayed and made available for exploration and purchase.
- **Transaction:** The historical and persistent tracking of a successfully completed purchase. It records who bought, what was bought and the exact amount paid at that time.
- **User:** The standard customer registered on the platform. They possess login credentials (nickname and password), a Balance and a Library. They can browse the Store, make purchases and submit Reviews.
